Affordable, Craftsmanship, Quality

PAINTING • CARPENTRY • DRYWALL

ARGENTA PAINTING LTD. SERVICE WARRANTY

Argenta Painting Ltd.'s warranty is a comprehensive 3-year warranty that covers all vertical surfaces (only) we have prepared and painted.

Our professionals have been trained to properly prepare surfaces before painting. This ensures proper "paint to substrate" adhesion and therefore a longer lasting job.

One foreman fully experienced in professional coatings will handle the daily on site management of the project for the duration of the job in order to ensure quality control and to keep the highest standards, as well as to ensure the proper application techniques are followed.

Our quotes/estimates always include the most suitable product for the surfaces we are applying it. In the event there is an issue of paint failure within the 3 years following our paint job (three years after the last walkthrough/job closing), we will gladly fix it for you. While we fix the problem we will inspect all other areas to ensure there is nothing else that could lead to further failure.

This warranty does not cover any horizontal surfaces or any surface that by design allows water to collect, such surfaces include, but are not limited to, decks, porches, railings, roofs, gutters, stairs, etcetera. This warranty also excludes any areas we have not prepared, pressure washed, scrapped, sanded, primed, etcetera) ourselves.
